SUBJECT: Helicopter Operations

This memo covers helicopter operations at BUMCT for the month of January. During that time frame, there were 81 medical flights, compared to 89 last month and 88 a year ago.

There were three observed violations of the no-fly zone this month. In one instance, the pilot stated he had violated due to patient condition. A second violation occurred because it was the pilot's first visit to BUMCT. The officer on the pad spoke to the pilot, explaining the no-fly zones and his departure was correct. In the third instance, we were unable to contact the pilot as the violation occurred during departure.

We have no recorded reports from our neighbors this month.

Please pass on to our neighbors that if they have questions or concerns about a specific helicopter flight, they should feel free to contact me through BUMC Security at 694-6533.
